International Travel Guidance

If you plan to travel internationally, you will need to get tested no more than 3 days before you travel by air and show your negative result to the airline before you board your flight or be prepared to show documentation of recovery (proof of a recent positive viral test and a letter from your healthcare provider or a public health official stating that you were cleared to travel). It is your responsibility to check with the country of destination and your airline to be sure of any specific requirements. First Call Medical Clinic at BWI can provide all certification documents following the appropriate medical service requested.

While you are traveling
